MODEL

FL-55B

ADVANCED
BILL COUNTER

Easy to
Operate

Charge able
battery

Voltage 100-
240V

PARAMETER

Dimensions	250 × 230 × 145mm
Weight	3kg
Counting speed	>1000pcs/minute
Power consumption	Working<90W
Power source	12V, 5A
Noise	<60dB
Ambient temperature	0°C~40°C
Ambient humidity	< 90%h(non condensing)
Counting range	1~999
Preset range	1~100
Banknote size	Long 120~170mm Wide 50~85mm Thick 0.075~0.15mm

SAFETY INSTRUCTIONS

- Only use the power adapter that comes with the machine. Plug the power adapter into a properly grounded wall outlet.
- Do not use the machine if the power adapter is damaged.
- Do not place the machine in an area where it may be exposed to water or other liquids.
- Do not take apart the machine. When service or repairs are needed, bring to a qualified service repair technician.
- When unplugging the power adapter from the outlet, grip the plug to pull it out.
- Do not place objects on the power adapter and do not bend it excessively.
- Before dusting the machine with a brush, unplug the machine from the wall. Do not use liquid or aerosol cleaners on the machine. Use a soft brush to avoid any paper particles or dust from sticking to the light transmitter or the light receiving sensors.
- Do not use the machine in areas of high temperature, high humidity, or strong sunlight. This may result in the machine not working properly.
- When not using the machine for long periods of time, unplug the power adapter from the outlet.

IDEAL FOR

Retail Shops

Exchange Houses

Banks

Corporate Offices

Cash Centers
